

3rd July 2017

RoHS Policy

Restriction of the use of certain Hazardous Substances in electrical and electronic equipment

We hereby advise that wherever possible, to our knowledge and after careful checking with our suppliers, all materials supplied to Bluemay Limited (“the Company”) are compliant with the current RoHS directive and as such do not contain or exceed allowable levels of restricted levels of restricted substances as specified in the RoHS directive.

We require suppliers to the Company to keep up to date with RoHS regulations and to notify the Company of any changes with regard to the compliance of substances supplied. The Company will in turn notify customers of any relevant changes.

Since the presence of the substances mentioned above cannot be expected under normal circumstances, the Company does not check for their absence.

Validity: This policy certificate is valid until 31st July 2018 and will be renewed annually.

Contact: Please contact Mrs Alison Burgess on 01380 821821
